# HI THERE

I was born and raised in the UK, but proud to hail from Italian descent – but please don't expect a strong Italian accent, think more Bradford!

Over the last few years, my love for photography has blossomed; initially inspired by the greatest muse in my life (obviously my dog, Joey), my passion progressed into landscapes, portraits, videography and finally finding its home with wedding photography.

Being a wedding photographer has become my main focus as I love capturing the special moments and being able to provide newlyweds with the memories to look back on and relive for the rest of their lives.

I got married last September (2023) so have recently been where you are now and know what wedding planning is like!

## FUN | CANDID | NATURAL |

For me I'm all about fun, natural & candid whilst nailing stunning wedding photos.

I do it all, from the bridal prep saga to the dance floor partying.

I like to keep the day lighthearted, fun, exciting and give you an experience not a photoshoot.

I love to have fun with all my couples keeping those smiles shining.

If you're looking for someone to just "stand on the side" and take pictures maybe I'm not for you.

But if you want some who will thrive and deliver excitement then I'm the one.

If your guests are still calling me the camera man at the end of the day then I've failed.

**From the moment Fabio started I knew I'd made the right decision.**

**If the guests are still calling me the camera man by the end of the day and not Fabio.**

**Then i've failed**

### **600+ Images**

Fabio made us feel at ease and answered any questions we had, no matter what they were. He was brilliant at directing us and telling us what poses to do, especially my husband (who hates having pictures taken!). So many guests commented on how friendly he was and he blended into the wedding seamlessly

## MY APPROACH

### 1 HAVE FUN!

Laughter is the best medicine, and the key to the best photos. I don't want you to be bored on your big day, my goal is to get the job done while we have some fun.

### 2 BE MY GUEST

How many weddings have you been to where you have no recollection of the photographer? That's not me. If your guests are still referring to me at the end of the day as "The Photographer" instead of "Fabio" then I've failed. I love when your guests feel they can call on me any time they want a photo.

### 3 COUPLE SHOTS

I'm 20% posed/80% Natural

And i work fast too, your couple photos will never stem longer than 20 minutes! If there is a nice sunset later i may drag you back out for another 10 minutes later

### 4 THE SQUAD

Bridesmaids and groomsmen are often some of my favourite shots to have fun with. Lighting smoke grenades, spraying prosecco, fighting for the bouquet, or even launching the groom – it's all a yes from me!

### 5 KEEP IT CANDID

I like to blend in with the guests to grab every moment in its natural form, telling the true story of your day.

Engaging with your family and friends helps everyone to relax around the camera. Getting them to be themselves is where I shine.

### 6 FAST

My plan of action going into group shots is efficiency – maximum combinations in minimum time. I'm not afraid to wrangle your guests to get you back to your prosecco ASAP.

Family shots area always the longest chore but i've mastered the art of getting these done quickly, I'm all about ensuring the photos dont dominate your day without compromising on quality and quantity.

## FREQUENTLY ASKED QUESTIONS

How are the pictures delivered?

Via an online gallery, you will receive a direct link to your own special gallery with all your images hosted on. This makes it simple to share with all your friends. From here you can also order prints if you wish to and as the bride & groom you are also able to hide certain images from your guests that you might wish to keep private.

What happens if you are ill?

I make every effort to attend a wedding and I will turn up on my death bed if I need to. But in extreme cases I have a trusted network of photographers and between us we all cover each other in emergencies in the unlikely event there is an issue.

Do you charge travel time?

For weddings within 1 hour of Leeds there is no travel time, weddings outside of this are charged at the cost of petrol and no more.

Long distance weddings will require accommodation the night prior to ensure I'm there on the day. For this I find a cheap hotel nearby and charge for this.

Do you edit every photo?

Every single photo is edited, not a single image leaves my computer with out having some work done on it

How long do my photo's take to arrive?

My contract states 4 to give me some additional time but my aim is to return images with in 1-2 weeks back to you

Do you have backup equipment?

I have 3 cameras, multiple flashes, multiple memory cards and multiple lenses.

Weddings are a once in a lifetime memory and they deserve the utmost redundancy

What are your payment terms?

£125 deposit secures the date, 4 weeks prior to the wedding the full balance.

## THE BOOKING PROCESS

### STEP 1 CHECK THE DATE

Drop an enquiry to see if i am free! Date's go quickly and up to 2 years in advance (especially for summer)
